PRESS RELEASE

Unisap to become Aptelis

Irvine, CA, April 20th, 2010 - Effective today, Unisap Inc., a leading provider of enterprise IT services, announced that it is retiring the name Unisap and rebranding itself as Aptelis. At the same time, the company unveiled a new identity and website, www.aptelis.com.

Unisap, now Aptelis, has been in business since 2000. Headquartered in Irvine, California, Aptelis is a customer-focused consulting company specializing in SAP Enterprise Applications and Technology. Aptelis' primary goal is to help clients achieve their business objectives through effective use of information technology.

"I am excited about our company's rebirth as Aptelis. As our business has continued to grow and mature, we felt that the time was right to rebrand and recreate ourselves," said Christopher Hanson, Chief Operations Officer of Aptelis. "Unisap was founded with a set of core principles and a focus on our clients that we intend to carry forward with us as Aptelis, and we believe that the new name will allow us to better work with SAP and our other partners."

The name, Aptelis, derives from two words – Apt, capable, and Fidelis, loyal. For Aptelis, those two words exemplify our business, people, and company as we strive to provide solutions unmatched in service, value and integrity.

"As we are reaching our 10 year mark, it is exciting to see that our company is taking another major step," said Paul Tran, Founder and President of Unisap. "Unisap has made a major contribution to the SAP market in Southern California in the last 10 years. We are now ready to work closer with SAP America in expanding our geographical footprint as well as our industry and solutions focus. And though we have a new name, we are still the same great company."

Aptelis will continue to provide platinum level consulting services and uphold its basic principle of building relationships with its customers and partners through a commitment to provide high quality and accessible service.
